

2016 Preparedness Symposia

Nebraska Biocontainment Unit

The Nebraska Medicine Biocontainment Unit will be providing a special one-day training on "Care and Coordination for the Highly Infectious Disease Patient and Related Procedures". The training will deliver education on caring for the highly infectious disease patient in a safe and effective manner. The education will describe processes utilized by the Nebraska Biocontainment Unit that will encourage discussion and promote plans that can be implemented in various settings throughout Nebraska. Participants include:

- Local and State Public Health Departments
- Critical Access Healthcare Facilities
- Frontline Healthcare Facilities
- Emergency Service Providers
- Medical Examiners
- Mortuary Providers
- Utility Personnel

Preparedness Symposia

"Learning from the Past; Preparing for the Future" is the focus of the 2016 Preparedness Symposia. Sessions will provide practical ideas and lessons learned from previous events, as well as insight into the future, all with the goal of improving whole community preparedness. Topics include:

- Climate Change and Emerging Infectious Diseases
- Station Nightclub Fire Response
- Avian Influenza
- Drones
- Social Media in Disasters
- Long Term Care Evacuation
- Public Health and Ebola
